Permit is hereby granted to the above-designated Permittee to CONSTRUCT emission source(s) and/or air pollution control equipment consisting of seven portable blending tanks #33-#39 as described in the above-referenced application. This Permit is subject to standard conditions attached hereto and the following special condition(s):

- 1a. This permit is based on the permittee meeting all requirements of 35 Ill. Adm. Code 218, Subpart AA including: covers on mills, tanks and vessels (Section 218.624), maintenance and enclosure of grinding mills (Section 218.625), conservation vents and submerged fill on storage tanks (Section 218.626), inspection and timely repair of leaks (Section 218.628) and acceptable cleanup methods (Section 218.630).
- b. The Permittee shall maintain all records necessary to demonstrate compliance with 35 Ill. Adm. Code 218, Subpart AA at the facility for a period of three years. These records shall be available for inspection and copying by the Agency.
- 2a. Emissions and operation of the seven blending tanks shall not exceed the following limits:

Colorant Material Production Rate		Operating Hours (Hr/Yr)	Volatile Organic Material (VOM) Emissions	
(Ton/Month)	(Ton/Yr)		(Lbs/Month)	(Ton/Yr)
158	1896	468	507	3.10

These limits are based on the information provided in the application. Compliance with these limits shall be determined from the records required by conditions in this permit.

3a. The Permittee shall maintain records of the following items, for the Agency to verify compliance with applicable requirements.

- i. Monthly and annual colorant production.
- ii. Amount of each VOM containing raw material used in the seven blending tanks and amount of VOM, molecular weight and vapor pressure in each VOM containing raw material.
- iii. Amount of other VOM containing materials used and VOM content.
- iv. MSDS of each raw material.

b. These records shall be retained for three years and shall be available for copying and inspection by Agency.
